Subject: 2016-3-18 - wafb - st012 - FYI - ADEQ internal SEE briefing - update 3-16-2016

FYI —

(1) ADEQ management happy with Thermal treatment showing results ...seem to be leaning toward OK-ing heat shutdown.

(2) - Asking if ADEQ/EPA project-level personnel have established plan using existing wells as sentinels. Per our concern about NAPL characterization and mobilized product.

Management not necessarily backing new characterization wells, or committing to fight for new wells, unless project level are sure existing sentinel system is not OK. If agency project professionals not confident in existing sentinel system, ADEQ management will listen to concern.

(3) Management does agree that the USAF exit strategy (EBR) is vague and could create future dispute.

ADEQ management present for update: Tina LePage, Manager, Remedial Projects Section (Harry Hendler's boss), Ana Vargas, Asst. Division Director (Tina's boss); Laura Malone, Division Director (Ana's boss); Misael Cabrera, Director, ADEQ (Head of the ADEQ).
